

How to enable your Twitter Account to receive notifications on your mobile device

From your Twitter page, click on Settings

Use Twitter with Text Messaging!

Twitter is more fun when used through your mobile phone. Set yours up! It's easy!

Twitter does not charge for this service. Standard message and data rates may apply.

1. Choose your country/region

2. Enter your mobile phone number

Enter your mobile number

Let others find me by my phone number

3. Verify your phone

Press start to verify your phone

From the Mobile section, enter your number and verify your phone

Find @kuwaitculturela, follow and enable mobile notifications
